Practical Life Area

This month we will focus on how to use measuring spoons and tweezer work, along with small spoon transfer work.

Math Area

The younger children will continue to learn more about the numbers they are working with and learn the concepts of more and less. They will work on sandpaper numbers, red rods and decimal system 1-10. The older children will continue to learn dynamics and counting by 5 and 10.

Sensorial Area

This month we will be working with the mystery bag and smelling bottles. The mystery bag captivates the child's intellectual curiosity of geometric solids and helps develop a better stereognostic sense in the child. The smelling bottles helps their sense of smell.
